PROFESSIONAL SUMMARY

Information Systems undergraduate at UPN "Veteran" East Java with a GPA of 3.83/4.00, passionate about Product Development and building digital products that solve real-world problems. Experienced in transforming ideas into user-centered solutions through product planning, UI/UX prototyping, and end-to-end web development using Laravel, React.js, Next Js and Tailwind CSS. Combined with hands-on experience in entrepreneurship, organizational leadership, and data analytics using Power BI and Google Looker Studio, I enjoy bridging technology, business, and user needs to deliver impactful, data-driven products. A collaborative and adaptable team player who thrives in cross-functional environments and continuous product improvement.

EDUCATION

UPN "Veteran" East Java, Surabaya

2024 – Present

Bachelor of Information Systems

Relevant Coursework: Information Systems Management, Business Statistics, IT Governance, Database Management, Web & Mobile Programming, Design Thinking.

SMK Negeri 2 Surabaya

2021 – 2024

Vocational High School - Software Engineering (RPL)

PT Terminal Peti Kemas Surabaya (Pelindo)

June 2026 – Present

Information Technology Intern

- Developed AI-powered full-stack web applications using Next.js, Python, and Docker for enterprise operational systems.
- Integrated Machine Learning and Computer Vision models into scalable web applications to improve safety monitoring and operational efficiency.

Data Science Cohort – Asah led by Dicoding

June 2026 – Present

Data Science Intern

- Participating in a structured data science cohort program, developing skills in data processing, analysis, and modeling.

PT Kelas Kampus Indonesia

May 2026 – Present

Front-End Developer Intern (Remote)

- Contributing to the development of the company's website and an online examination platform designed for students and customers, focusing on building responsive and functional user interfaces

CV. Arindra Production

December 2022 – May 2023

Product Development Intern

- Contributed to end-to-end product development by transforming ideas into UI/UX prototypes and functional web application.
- Implemented scalable product features using Laravel and Tailwind while ensuring usability, performance, and maintainability.
- Collaborated with multimedia division to validate concepts, refine user experiences, and deliver impactful digital products.

PROJECTS

Kos Management System - Property Management Web Platform

Role: Full Stack Developer | Laravel, Tailwind CSS, Midtrans · ApexCharts

- Built a comprehensive property management platform automating room bookings, tenant tracking, and financial reporting.
- Enabled students to search and filter kos rooms by budget and location with seamless Google OAuth access.
- Integrated Midtrans payment gateway for secure and real-time transactions; visualized analytics via ApexCharts.

Website UKM Penalaran - Organizational Web Platform

Role: Full Stack Developer & Web Administrator | WordPress, PHP, MySQL

- Built and maintained the official website for UPN's student reasoning and creativity unit.
- Optimized content structure and UI to improve real-time publication of academic activities and achievements.
- Ensured platform uptime and data integrity throughout a full one-year organizational term.

TemuAksi - Social Innovation Mobile Marketplace

Role: Mobile Developer | Flutter, Firebase

- Developed a high-performance mobile marketplace connecting social innovators with relevant opportunities.
- Implemented Google Sign-In for secure and frictionless onboarding, reducing registration friction significantly.
- Designed scalable real-time data architecture using Firebase to support concurrent users.

Shopping Kuy - C2C Pre-Loved Fashion *Marketplace

Role: Full Stack Developer | Laravel, React.js, Alpine.js, RajaOngkir API, Midtrans

- Built a full-stack C2C e-commerce platform specializing in authenticated pre-loved fashion items.
- Integrated RajaOngkir API for real-time shipping cost calculation across Indonesian logistics providers.

FMCG Sales Analysis - Business Intelligence Dashboard

Role: Data Analyst & BI Developer | Power BI, Data Analysis, FMCG

- Transformed raw FMCG transaction data into actionable business insights using Power BI dashboards.
- Identified sales trends, regional performance gaps, and product category opportunities to support strategic decisions.
- Delivered executive-ready visualizations accessible via Google Workspace integration.

ORGANIZATIONAL EXPERIENCE

Society Of Renewable Energy

May 2026 – Present

Web Development Manager

- Led the design and development of SRE UPNVJT's official website from the ground up, ensuring a functional and user-friendly digital presence.
- Managed Website content update and maintenance in collaboration with the Media and Creative to support digital outreach.
- Coordinated cross-functional web initiatives across divisions, demonstrating strong leadership and adaptability within the organization.

Information Systems Community

April 2026 – Present

Programming Mentor

- Managed the Programming Mentor Division, coordinating mentors and cross-functional learning programs.
- Led project-based mentoring, fostering problem-solving, teamwork, and technical growth.
- Improved learning processes through mentorship, collaboration, and effective communication.

Novo Club by Paragon Corp

March 2026 – Present

Novo Entrepreneurship Program

- Participating in an intensive leadership and entrepreneurship development program backed by a leading national corporation.
- Developing business strategy mindset and professional networking with corporate leaders and industry experts.

Himpunan Mahasiswa Sistem Informasi

February 2025 – February 2026

Public Relations Staff

- Initiated and coordinated strategic communication with external parties for Company Visits and inter-university benchmarking programs.
- Facilitated negotiation and partnership processes to align visit objectives with the Information Systems curriculum.
- Produced formal documentation, event protocols, and public relations materials to maintain the organization's positive image.

UKM Penalaran dan Kreativitas UPN "Veteran" East Java

January 2025 – January 2026

Website Staff

- Managed and performed routine maintenance on the organization's official WordPress-based website.
- Optimized digital content structure to improve publication effectiveness of student achievements.
- Actively participated in various UKM research programs, academic reasoning initiatives, and benchmarking with other organization.
